AUGUST 2019

Dear Colleagues, Partners and Friends of EIT Digital,

We hope you had all a nice summer to start a year full of projects and innovations.

The EIT Digital conference is around the corner and if you have not yet registered, here are 5 good reasons to do it!

Reason 1: You will find out how to **scale up your business** and learn about the mutual benefits of working in an **international innovation ecosystem**, showcased by our keynote speakers **Andreas Kunze** (Konux) and **Nuria Oliver** (Vodafone Institute) and illustrated by an impressive panel representing our partners and members.

Reason 2: We will put the finger on the pressing **policy issues** of Europe's digital sector! MEP **Eva Kaili** will present her view on the EU Digital Agenda for the coming years. European Commission Director **Despina Spanou** will discuss with Element Ai's **Yves Lostanlen** how the competitiveness of Europe's digital economy can profit from European values. And **Klaudia Majcher** from the Commission's Political Strategy Centre EPSC will join MatchX CEO **Xin Hu** to debate whether (EU) regulation and open innovation are at odds or can in fact benefit each other.

Reason 3: You will experience more than 50 innovations shaping your and Europe's future. Our [Innovators Village](#) features deep tech scaleups and digital solutions that will leave a mark in the global economy and change the rules of the game in digital wellbeing, tech, cities, industry and finance. The Village also demonstrates the rich offering of **EIT Digital educational courses**, preparing students and upskilling professionals for the jobs of the future. And don't miss our B2B services that help you to scale up in Europe and expand across the Atlantic!

Reason 4: You will engage in the debate on the **Challenges of Higher Education** with Innovation and Entrepreneurship professor **Milena Stoycheva** and the European Commission's **Gyula Cserey**, and raise the question how the European education system can adapt

to the digital reality, to equip people with the right digital skills and to deploy digital technology that supports education.

Reason 5: And you will find your perfect collaboration partner in one of more than 500 (formal and informal) **Matchmaking Sessions**.

A strong digital Europe is all about us teaming up. Feel free to share this invitation and strengthen our ecosystem!

We are looking forward to meeting you in Brussels! [Join us now!](#)
